PARUL UNIVERSITY

“JAVA PRACTICAL VIVA QUESTION BANK”

OBJECT ORIENTED PROGRAMMING WITH JAVA(OOPJ) LABORATORY {03010803PC04}

Semester: - 03

1.who developed java? When and where.

2.What is JVM, JDK and JRE?

3. What is programming Paradigm? It's type.

4. What do you understand by IDEs?

5. What do you understand by platform- independent?

6. what are Variables and Datatypes? Explain types of data types.

8.what are wrapper classes in java? Syntax for declaring wrapper class.

9.what is type-casting? Explain its types.

10. What are operators? Define its types.

11. What are control structures and loops? Explain types of loops with syntax declaration.

12. Define arrays and types with syntax declaration.

13. Explain String and its operation? How String has been define in java .

14. Explain concept of String Buffer and String Builder in java? Explain with a syntax declaration.

15. Explain string methods?

16. Explain the Concept of object-oriented programming? Define the main four pillars of OOP, With syntax declaration.

17. what is method overloading and method overriding?

18. What are interfaces?

19. What are this, super and final keywords?

20. Define the basic Structure of java programming? And questions raised based on the basic program.

21. What are Errors and Exception? Explain its types.

22. Difference between Errors and Exception?

23. What do you understand by custom Exception?

24. What is a try-catch and multiple catch block? Why are we using it in java program.

25. What is Java Collection Framework? Explain Set interface with syntax declaration.

26. What is List interface and Map interface? Explain with a syntax declaration.

27. What are Iterators and generics.

28.What do you understand by multi-threading concept . Explain Thread and process.

29.What is the concept of inter-thread communication, Synchronization .

30.Explain File Handling operation? What is Byte Stream, Character Stream and Buffered Stream.
